Throughout this year Bunnings have been coming in to work with the Grade 6's. We have made tool boxes, coasters and helped our buddy classes make pencil boxes. We have really enjoyed working and learning how to use tools correctly. As part of Bunnings graduation legacy, they recently donated three Pepperberry trees for the Grade 6's to gift to the school. They are planted near the oval at the end of the driveway.

Grade 6 have recently completed their sustainability bottle top mural. We would like to say a huge thank you to all the people who made this possible, especially:

- Bunnings who donated the backing board and the screws to attach the lids,
- Rod and John from the Burnie Men's Shed who helped to screw all 2000 lids in place.

We really appreciate all of the support and we are super
